

## Innovative technology for more safety

---

Especially now in the winter season essential: a perfect scene illumination!

Rosenbauer Customer Service has therefore generated LED upgrade packages in order to bring vehicles that have been in service for years up to date with the latest lighting technology.

The various lighting upgrade packages can be adapted to your specific requirements, and the efficient LED systems ensures the maximum illumination output with minimal energy consumption.

## Upgrade packages for your application

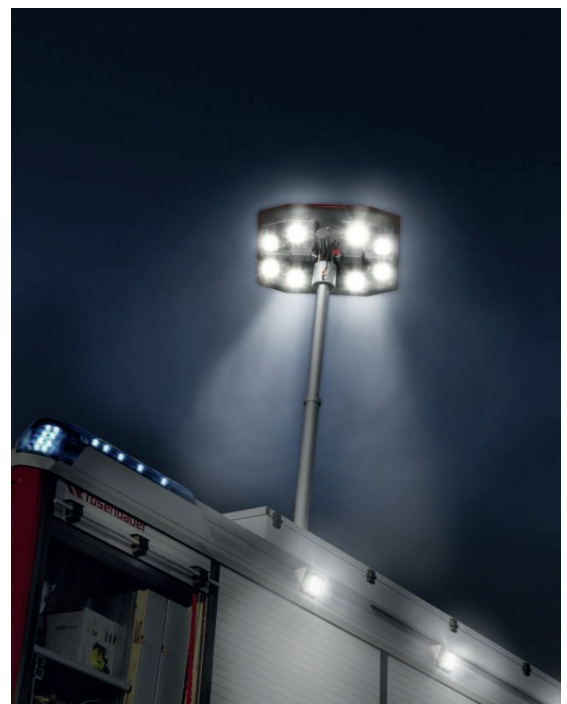

---

- Compartment illumination
- Scene lights
- Flashing lights
- Light mast
- Cage lighting of your aerial appliance
- Podium lighting / Working lights

## Benefits that are convincing

---

- Precise optic creates a extremely wide beam distribution
- Low energy consumption with enormous light output
- Long service life of the LED lights
- No start-up time
- 230V generator supply is not longer necessary, 24V vehicle supply is sufficient

# LED Lighting Upgrades

## In comparison it becomes clear

The innovative LED lighting upgrades from Rosenbauer actively contribute to safety and efficiency during emergency interventions.

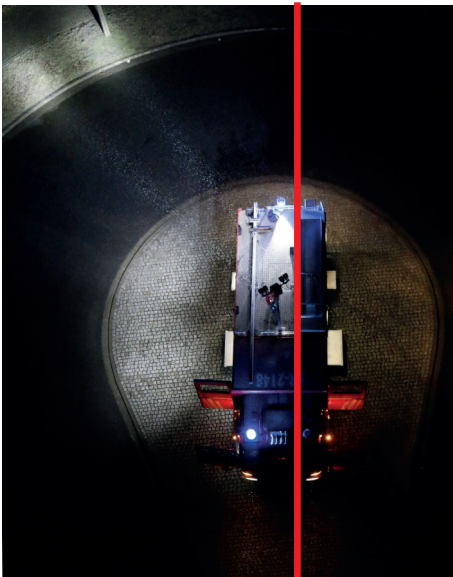

Compared to conventional light sources, the high-performance LED lightings are 3 times more efficient and provide a enormous scene illumination.

*Conventional lighting*

*Efficient LED lighting*

*Powerful and precise scene illumination after the upgrade*

*LED Compartment Illumination*
